Sommelier's Selections

A selection of wines I enjoy drinking

- 1998 Marc Bredif Vouvray** **Loire, France** **89**
This wine shows great purity of expression, with prodigious ageing potential it is an excellent example of what Chenin Blanc can achieve, complex notes of flowers, Quince, lanolin, apples, and citrus are integrated in wines that have refreshing acidity which aids their slow evolution.
- 08 Ribeauville Riesling** **Alsace, France** **57**
The Riesling is king of Alsace wines dry and racy, with various aromas from fruit notes (Citrus fruits) to mineral aromas (Flinty). Vigorous at the beginning it shows a well structured and a long lasting finale.
- 08 Yabby Lake Vineyard Pinot Noir** **Mornington Peninsula** **142**
This wine exhibits a great depth of colour. Ripe black cherry, dark forest berries and Asian spice marry well with perfumed oak aromas. The palate displays a complex array of ripe small berry characters and spicy oak. The wine has excellent density & concentration and pin point balance. But it is the texture and mouth feel of this wine that we are most excited about, it is rich and velvety with intense Pinot Noir fruit flavours and a powerful long, but restrained finish. This Pinot Noir will age gracefully for at least ten years under ideal storage conditions, a classic vintage.
- 09 Langmeil Valley Floor Shiraz** **Barossa** **70**
Local knowledge of the valley floor has helped us to secure prized shiraz vineyard sites from 19 of the 28 Original villages with some vines more than 100 years old. With hands-on winemaking gentle de-stemming, open Fermentation and basket pressing into 27% new and 73% seasonal American oak for one year and with minimal Filtration and no fining, you have our interpretation for pure Barossa shiraz
- 08 Kilikanoon Covenant Shiraz** **Clare Valley** **99**
The 2008 Covenant Shiraz reflects the celebrated winemaking heritage and varietal riches that the clare valley Has to offer. The combination of careful shiraz fruit selection, traditional winemaking techniques and maturation In small French and American oak casks has created a wine that is both complex and rewarding.
- 06 Ben Schild Reserve Shiraz** **Barossa** **71**
Our finest Shiraz is carefully selected from the Schild family vineyard and harvested at optimum ripeness ripeness. Following open fermentation the wine has matured in American and Hungarian oak for 17 months. This wine has great cellaring potential and is a milestone in wine making for Schild Estate.

Red Wine by the glass 150ml

- 07 Kingsleys Prime Red Cabernet Merlot** South Eastern Australia **8**
"Ripe berry fruit and lifted spice are evident on the nose. Chocolate, cassis and blackberry fruit flavours on the palate are supported by a soft lingering tannin finish"
- 06 Kilikanoon Blocks Road Cabernet Sauvignon** Clare Valley **15**
"The nose is intensely redolent of blackcurrants, dark chocolate & garden herbs. Ripe, dark flavours of plum & dark cherry saturate the seamless palate, further complexed by the spice & char from French oak"
- 10 Paringa Peninsula Pinot Noir** Mornington S.A **13**
This wine is a fruit driven style that has genuine ripe pinot characteristics with considerable finesse and style. The bouquet and palate has dark cherry fruit flavours and aromas a little spice and subtle oak characters.

Riesling

Riesling is a white wine, originating in the Rhine region of Germany. Riesling is an aromatic grape variety displaying a powerful & distinctive flowery aroma. It is almost perfumed with apple, pear and stone fruit that frequently mix in mineral elements. Its high natural level of tartaric acid enables it to balance even high levels of residual sugar as well as high acidity. It is used to make dry, semi-sweet, sweet and sparkling wines.

Sauvignon Blanc

Sauvignon Blanc grape gets its name from the French word Sauvage (“wild”) and Blanc (“white”). Sauvignon Blanc grapes produce a crisp, dry and refreshing style. Depending on the climate, the flavours range from aggressive to sweetly tropical. The flavours range from sour green fruits of apples, pears and gooseberries through to exotic tropical fruits of melon, passionfruit and pineapple.

Semillon

Semillon is a grape mostly blended with Sauvignon Blanc. It is also used to make sweet white wines. Picked early for low potential alcohol and un-oaked style, it produces a complex, mineral, lemon blossom flavour with notes of grapefruit & beeswax. With several years in the bottle, Semillon undergoes a metamorphosis, putting on weight and exhibiting a buttercup-yellow colour. On the nose it presents burnt toast & honey characteristics, with excellent complex flavours on the palate with a long finish of soft acid.

Pinot Gris & Pinot Grigio

The French call it Pinot Gris, the Italians call it Pinot Grigio, and it is a mutant clone of the Pinot Noir grape. The grape has a brownish pink to black and sometimes white appearance. Classic Pinot Gris characters include honey & fresh butter balanced by a touch of tinned pears, dried apples and hay with a slightly sweet finish. Pinot Grigio is often described as having smoky & salty mineral notes. It is often followed by pink grapefruit, melon & lemon & balanced by great acidity.

10	Grant Burge The Vigneron	Adelaide Hills	57

Verdelho

Verdelho is mainly used to produce medium-sweet white wines. With modern winemaking techniques such as controlled pellicular macerations (or batonnage where the skins bubble together for 24 hours before pressing) have unlocked some surprising characters from this grape. The resulting wines are aromatic & herbaceous revealing laurel leaf, fresh hay & citrus. They have a full middle palate and with good oak treatment, develop nutty characteristics normally only found in rich Chardonnays.

Chardonnay

Chardonnay is believed to have originated in Burgundy region of eastern France but is now grown in many other parts of the World. The Chardonnay grape itself is very neutral, with many of the flavours commonly associated with the grape being Derived from such influences as terroir and oak. It is vinified in many different styles, from the elegant & flinty, to rich, Buttery & tropical fruit flavours.

Rosé

Rosé is a wine that goes through the red winemaking process, but is stopped before extracting too many of the red Wine characteristics. Made from the red varietals, the grapes are pressed and the juice sits with the skins for fermentation – but just for a little while – enough time to obtain a bit of colour and a bit of the skin characteristics. The fermentation continues as a white wine, most often in stainless steel. Rosé styles range from sweet or dry, dark or light in colour; aromas include violets, dried roses, wild flowers, strawberries, cherries, raspberries, apple, and lychee& pineapple.

Pinot Noir

Pinot Noir is the name derived from the French words for “pine” and “black”. This alludes to the varietals’ clustered dark purple pine cone shaped bunches of fruit. A great Pinot Noir creates a lasting impression on the palate and in the memory. Its aroma is often one of the complex of all varietals and can be intense. With ripe grape or black cherry aromas, frequently accented by pronounced spiciness that suggests cinnamon, saffron or mint. Ripe tomato, mushroom, and barnyard smells are common descriptors for identifying Pinot Noir. It is full bodied and rich but not heavy with substantial flavour despite its delicacy. The most appealing quality of Pinot Noir may be its soft, velvety texture. When right, it is like liquid silk, gently caressing the palate.

Merlot

Merlot is a red grape that is used both as a blending grape and for varietal wines. Merlot based wines usually have medium body with hints of berry, plum and currant. Its softness and fleshiness, combined with early ripening, makes Merlot an ideal grape to blend with the late-ripening Cabernet Sauvignon.

Cabernet Sauvignon

Cabernet Sauvignon is one of the world's most widely recognized red grape varieties. In cool regions, the wine is herbaceous and show flavours of green peppers. In regions where the grape is exposed to excess warmth and over-ripening, there is a propensity for the wine to develop flavours of mint, eucalyptus and cooked or stewed blackcurrants. Cabernet Sauvignon with pronounced green pepper flavours earned the nickname of "Monterey Veggies". In parts of Australia, the grape develops more mineral flavours. Resinous Eucalyptus flavours tend to appear in regions that are habitats for the eucalyptus tree.

Shiraz

Shiraz is the fifth most populated city in Iran and the capital of Fars Province. Shiraz is located in the south west of Iran on the Rudkhaneye Khoshk seasonal river. Shiraz is known as the city of poets, wine & flowers. Shiraz is grown in many countries and is primarily used to produce powerful red wines. Shiraz is opulent, powerful and seductive .It displays bold ripe fruit, a fleshy mid palate & soft tannins. Wines made from Shiraz are often quite powerful and full-bodied. The variety produces wines with a wide range of flavour notes, depending on the climate and soil where it is grown. Aroma characteristics can range from violets to berries (usually dark as opposed to red), chocolate, espresso and black pepper. With time in the bottle these “primary” notes are moderated and then supplemented with earthy or savoury notes such as leather and truffle.
