Shochu

This unique Japanese distilled spirit can be made from numerous ingredients, including barley, sugar cane, buckwheat, sweet potato & rice. It generally has a 25% alcohol volume but this can rise to 45%, depending on what it has been made from. Shochu can be enjoyed in a variety of ways - on the rocks or with tea, hot or cold water, your favourite mixer or one of our infused syrups & sodas. Please ask your server for today's infusions.

saké

Kozaemon, the Nakashima Saké Brewing Company's signature label, is handmade in the mountains of Japan's Gifu prefecture. With a family brewing history spanning over 300 years, the passion & commitment involved in cultivating the purest of ingredients produces a truly special wine. This boutique brewery's dedication to its craft & the quality of its product is why Executive Chef Shaun Presland selected Nakashima as our Saké partner, & we are proud to be the sole importers of Kozaemon in Australia.

Abv = alcohol by volume (the strength)

SMV = Saké Meter Value (higher is dryer; lower is sweeter)

% = amount of rice polishing
