

BEVERAGES

Undertaker can provide both on-consumption & beverage package choices for clients.

BEVERAGE ON-CONSUMPTION

Undertaker can allow on-consumption for events.

Please be aware that the following policy applies to on-consumption:

General Beverage Availability

- All tap beers, light beer, basic spirits, soft drinks, mineral water, coffee & tea must be made available to guests.

Wines

- Wine choices are restricted to brands that are usually in large continuous supply. If we experience continuity issues choices will be replaced by equal quality.
 - Please choose one sparkling / Champagne, one white & one red.
- All wines are charged by the bottle.
- We are more than happy to look at ordering specialty wines for your event. The total order for specialty wines must be paid for in full.

Beers

- Tap beer availabilities vary from level to level.
 - If you would prefer another tap beer for your event KEG change over premium charges are applied. Premium charges are dependent on beer tap deletion and replacement.
- The 1903 Room can not cater for tap beer but we have an extensive range of bottled beers to choose from.
- Specialty beers can be made available for your guests. As with specialty wines we don't carry large quantities of every boutique beer variety. We are more than happy to order specific beers in for your event & these must be paid in full.

On-Consumption Expenditure

- Projected on-consumption spends will be invoiced at a reasonable estimated consumption rate based on the duration of the function and guest confirmation. This will be adjusted to reflect actual consumption rate when final invoice is compiled.
- Any additional beverage charges over and above the pre-payment must be paid for at the conclusion of the evening. Credit card details must be supplied to the events team for payment security purposes.
- Any credit balances will be paid by Undertaker within seven (7) days of the function. All credit adjustments & payments are only authorised by the event management team.

Continuity Issues

We make every endeavour to ensure that there is a continuous supply of your beverage selection throughout the evening. In unusual circumstances where there is over demand of one product & supply sold out we will notify you of replacement alternatives for approval.

ON-CONSUMPTION – PRIVATE DINING

Undertaker can allow on-consumption for small private dining functions of up to 30 guests. For dining functions over this number beverage packages must be applied.

The full restaurant beverage list will be made available for you during the evening however one sparkling, white & red choice must be chosen before the event.
